

China International E-power and Clean Energy Cooperation Forum & Expo

Basic Information

China International E-power and Clean Energy Cooperation Forum & Expo (CEFE)

Date: June 15-17,2015 **Venue:** China National Convention Center

Add: No.7 Tianchen East Road, Chaoyang District, Beijing 100105, China

Attendees for Conference : More than 1000

Exhibition Area: 22000 m²

Concurrent Activities:

- ✧ The 5th Global Smart Grid (China) Summit
- ✧ The 5th Global Distributed Energy and Energy Storage (China)Summit
- ✧ The 5th China International Smart Grid Distributed Energy and Energy Storage Technology and Equipment Expo (CIGEE & CDEE2015)

Hosted by:

Trade Development Bureau of Ministry of Commerce,P.R.C,

China Overseas Development Association (CODA)

International Cooperation Center of National Development and Reform
Commission

Power System Professional Committee of Chinese Society for Electrical

Engineering (CSEE)

Thermoelectric Committee of Chinese Society for Electrical Engineering (CSEE)

Organizer: Devis International Exhibition (Beijing) Co., Ltd.

Supported by: State Grid Cooperation Southern Power Grid

Overseas Cooperation:

Delegation of the European Union to China

Embassy of Israel in China

IEC (International Electrotechnical Commission)

IEEE-Standards Association

WADE (World Alliance for Decentralized Energy)

United States Energy Security Council

Danish Energy Association

State of Green

Israeli Smart Energy Association

European Union Chamber of Commerce in China

GIC German Industry & Commerce Greater China

Strategic Media:

Overview

As the sectors of Electric Power and Energy, the “China International E-power and Clean Energy Cooperation Forum & Expo” is an important part of of “China Overseas Investment Fair” . On Oct 23-24,2014, the “6th China Overseas

Investment Fair “and “China E-power Forum & Expo” held 47 seminars including “Clean Energy International Cooperation Forum”, “Smart Grid and Distributed Energy Forum” and others in Beijing Exhibition Center. More than 30 countries’ representative offices including Germany, Mexico, Ireland, Britain, Russia, Turkey and others had their booths. In addition, over 50 experts of China and abroad delivered their wonderful speech.

The them of 2015 Forum is “New Situation, New Challenge: Seek the Joint of International Electric Power Cooperation”. It will focus on the exchange of technology, equipment exhibition, investment and financing cooperation to promote the exchanges and cooperation in electric power and energy industry between China and Latin America, North America, Asia, Europe, Africa .The forum will also focus on: the impact of economic globalization and the regional development on the electric power and energy technology application and market demand; the influence of characteristics of the Humanities of International Society on the way of the Chinese enterprises participation in international electric power cooperation; public relations strategies and experience introduction. And this forum will also mainly introduce the strategy on cooperation with the countries (in electric power and energy field and market, project contract and equipment purchase) involved in the of “One Belt and One Road Strategy”.

This year’s forum consists of “One Belt and One Road” E-power and Energy International Cooperation Forum” and other special five forums including **China -Europe, China & - North America, China - Latin America, China - Asia and China - Africa Electric Power and Clean Energy Cooperation Forum (Attachment for details)**.This forum will play an positive role in promoting

the Chinese enterprises and introducing advanced technology and high-end equipment.

Besides “CEFE”, the “5th China International Smart Grid Distributed Energy and Energy Storage Technology and Equipment Expo”(CIGEE &CDEE 2015) will be held at the same time. CIGEE &CDEE started in 2010. It has been consecutively held for 4 years in Beijing and become one of the China's most influential exhibitions and conferences in the smart grid and distributed energy field. Focusing on the theme of "Drive Innovative Development of Smart Grid, Establish Modern Energy Interconnected System", this forum aims to build an efficient and high-quality platform for the enterprises to promote the upgrading and development of smart grid and distributed energy industry.

2015 is the 65th Anniversary of the establishment of diplomatic relations between the our two countries. In order to promote the development of our two countries' Cleantech,samrt grid,distributed energy and energy storage,we have the great honor to invite your Embassy to take part in this activity to contribute to changes and cooperation of high-tech industry.

We sincerely invite you to support this event in the following sectors:

1. Invite an official of your Embassy in Beijing to attend the opening ceremony and make keynote report on the morning of June 15th,2015
2. Invite an outstanding expert to make a speech at “China -Europe Electric Power and Clean Energy Cooperation Forum
3. Invite your Embassy to organize the enterprises to take part in this even for looking for cooperation partners in China.

Your great support will be appreciated !

AGENDA OF CIGEE2015

June 15 th a.m	
8:50-9:20 am	VIP Registration & Taking Group Photos
9:30-10:30 am	VIP Visiting Exhibition
10:30-12:00 am	Opening Ceremony & keynote Reports
14:00-17:30 pm June 15 th , 2015	
Forum Name	Them or Involved Countries
“One Belt and One Road” Electric Power International Cooperation Forum	a. The Opportunities & Challenges on Power International Technology and Equipment Cooperation Brought by One Belt and One Road Strategy; b. The Key Involved Countries’ Smart Grid and Distributed Energy Market and Strategy; c. International Project Contract and Equipment Purchase
China-America Smart Grid City Forum	a. International Communication and Cooperation about China and America

	<p>Smart City Construction;</p> <p>b. Strengthening Industrial Docking;</p> <p>c. The Combination of International Industry, Learning and Research.</p>
The 5th Global Smart Grid (China) Summit	It mainly focus on the smart grid energy internet, micro grid and smart city.
China-Europe Electric Power and Clean Energy Cooperation Forum	Main involved countries: German, France, Poland, Finland, The United Kingdom, Turkey, Denmark.
China-North America Electric Power and Clean Energy Cooperation Forum	Main involved countries: America、Canada
The 5th Global Distributed Energy and Energy Storage (China) Summit (I)	It will mainly discuss on sharing the distributed energy development experience, cross-border business model innovation and complementary smart energy system(Wind Energy, Solar Energy and Compressed-Air Energy Storage).
<p>June 16th, 2015</p> <p>9:30-12:00 am & 14:00-17:00 pm</p>	
The 5th Global Smart Grid (China) Summit	It mainly focus on the new energy connection, big data, EPC network and the next generation communication technology)
China-Latin America Electric Power and Clean Energy Cooperation Forum	Main involved countries : Brazil, Argentina, Chile, Peru, Venezuela
China - Asia Electric Power and Clean Energy Cooperation Forum	Main involved countries : India, Indonesia, Pakistan, Thailand, Burma, Japan, Korea
China-Africa Electric Power and Clean Energy Cooperation Forum	Main involved countries : Egypt, Morocco, South Africa, Kenya, Ethiopia
The 5th Global Distributed Energy and Energy Storage (China) Summit (II)	It primarily discuss on the distributed PV national subsidy policies, bank credit policies, investor return insurance and PV products import and export trend reports
Energy Saving and New Energy Demonstration City Forum	Theme: Green Electricity and the Future City It will choose the most representative demonstration city or district in the present new energy demonstration cities and districts to make a report)
