

Taipei Smart City Exhibition – 21 to 24 February 2017

The Taiwanese government wants to implement new Smart City solutions in its cities, and is actively looking abroad for new solutions in Smart Mobility, Smart Energy and Smart Safety. Next to the potential projects in Taiwan there are many opportunities for Dutch businesses in building Smart Cities in Asia. Taiwanese companies with their strong ICT background are playing a crucial role in this emerging industry, not only in Taiwan but also in other Asian markets. In order to stay competitive Taiwanese businesses are very interested to engage in cooperation with innovative companies.

The Taipei Smart City Exhibition is an annual B2B oriented exhibition that is focused on one-stop IoT solutions tailored to the needs of the client. It is the most comprehensive IoT and smart city trade show in the Asia-Pacific, and strategically located on the High Tech island of Taiwan. Therefore the Smart City Exhibition offers a great opportunity for Dutch business to make their first step to Asia.

Background

In 2015 and 2016 the Mayor of Eindhoven Mr. Rob van Gijzel led a business delegation to Taipei to attend the Smart City Summit & Exhibition. In both years the Dutch businesses joining this delegation were very satisfied with the opportunities offered and successfully met with potential Taiwanese business partners. The Smart City Exhibition has proven to be the right platform to connect Dutch and Taiwanese business in the field of Smart Cities.
